

## Communication

|                      |                                                                     |
|----------------------|---------------------------------------------------------------------|
| <b>Date</b>          | 15 September 2026                                                   |
| <b>Team ID</b>       | SWTID-2026-7879                                                     |
| <b>Project Name</b>  | Script-Controlled ACL – Restrict Record Access Based on Field Value |
| <b>Maximum Marks</b> | 1 Mark                                                              |

### Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

| S.No | Communication Type   | Frequency | Channel / Tool     | Participants  | Purpose            |
|------|----------------------|-----------|--------------------|---------------|--------------------|
| 1    | Team Standup         | Daily     | WhatsApp / Meeting | Team          | Progress tracking  |
| 2    | Progress Update      | Weekly    | Meeting            | Team          | Review development |
| 3    | Issue Discussion     | As Needed | WhatsApp / Meeting | Team          | Resolve problems   |
| 4    | Stakeholder Review   | Bi-Weekly | Meeting            | Team / Mentor | Get feedback       |
| 5    | Final Demo Rehearsal | Once      | Meeting            | Team          | Prepare final demo |

### Communication Challenges & Resolutions:

| S.No | Challenge                           | Resolution                                        |
|------|-------------------------------------|---------------------------------------------------|
| 1    | Understanding ACL scripting         | Studied ServiceNow ACL configuration and examples |
| 2    | Testing different access conditions | Created test users with different roles           |
| 3    | Debugging access behavior           | Tested records with different field values        |
